Dean's report II

Baltimore, May 29th 1900.

II As will be seen from the above statement the past year has been a most prosperous one. This prosperity can only be maintained, further improvement of our buildings and laboratory equipment. I would most heartily suggest that all delinquent fees paid in the interval between the sessions be devoted to these purposes. An atomical Hall is badly in need of repair, and a new exit from it necessary for the preservation of college property and the safety of the students. The greatest need in the curriculum is the reorganization of the work of the graduating year, which should in my opinion, be wholly devoted to clinical and special work. Such work can only be provided for by the removal of the boilers from the hospital building and the opening up of the entire first floor for dispensary purposes. I wish to call attention to the great benefit resulting from having the college office open from nine to two o'clock, and to testify to the faithful and intelligent assistance given me by Mr Herbert Lucas. Finally the Dean wishes to thank the Faculty for the confidence imposed in him by the Faculty for the past three years and to state that he is not a candidate for re-Election

Respectfully submitted
C. W. Mitchell, Dean
